12 MONTH WARRANTY

UMB-SYS PROTECTION

Introducing **EVERBRIGHT** solar fairy lights™

UMB-SYS Protection and iPS Technology

Everbright's feature a seamless umbrella design sealed by sonic welding to meet stringent IP56 rated waterproofing. This, combined with our Intelligent Power Saving technology, keeps them working reliably night after night, year after year.

USB Mains Chargeable

Everbright's are now USB chargeable which means you can use them inside your home as well as outside. USB also gives you the option to fully charge your lights in time for a party or special occasion if the weather has let you down.

Multi-Mount Installation System

Our new innovative Multi-Mount Installation System gives you the option to set up your Everbrights in virtually any location that gets good access to sunlight including your lawn, decking, fence, trellis, wall or roof.

Choice of Lighting Modes

Everbright Solar Fairy Lights now come with two extra modes giving you a choice of eight including, alternating, chasing, slow flash and all lights static on. Everbrights operate automatically but can be turned on and off manually as desired.
